

SIGNAGE

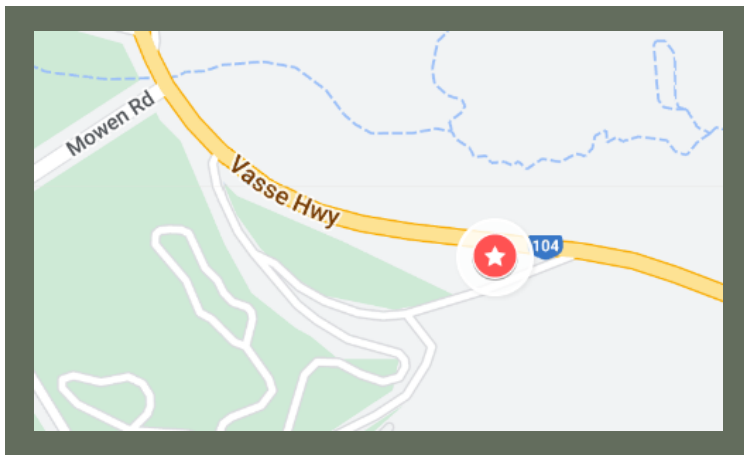

These maps have been created to ensure clear understanding of where signs are permitted throughout the Shire of Nannup before and during your event.

BANNERS:

During your event, signage and teardrop banners can be erected within your event footprint, as long as they allow clear and easily negotiable foot traffic on all paths and walkways. Signs and banners must not impede on any road traffic.

At the Northern entrance to town, there is a banner structure to secure event banners up to 5m by 2m.

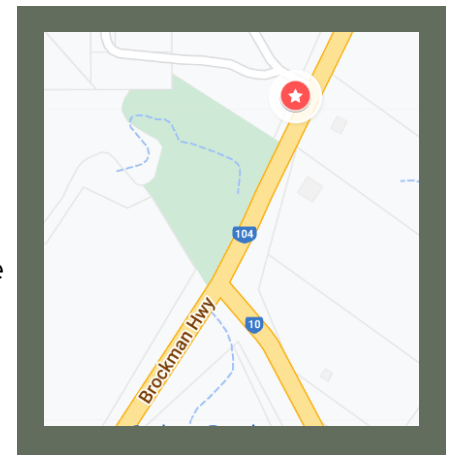

At the Southern entrance to town, there is a picket fence to secure smaller event banners.

The Nannup Chamber of Commerce and Industry run Banners on Warren, which provide events the opportunity to advertise on Warren Road. A design template is available at the Nannup Community Resource Centre. The Shire of Nannup will need to approve any designs before they are created.

A-FRAME SIGNS

A-Frame signs can be installed at the corner of Warren Road and Brockman Street, and outside the Town Hall.

Any signs or banners that impede on road and foot traffic will be removed in order to comply with Main Roads "Temporary Event Signage" policy.
