

Fill this sheet in to create an App entry with one photo. It is typically used for a business. Don't use this for a trail.

It's easy to create an Entry—it will take 10-15 minutes. This is best done on a desktop or laptop computer (using a mobile phone may frustrate you).

## ENTRY INFORMATION:

## Title :

Title of the Entry. For example, "Nannup Furniture Gallery" or "Barrabup Pool"

## Detailed Description:

Do not include phone numbers, email addresses, opening hours or web links here. These will be entered elsewhere and associated with buttons on the phone's screen. Do not include directions to get to the business or place. The map button will show users how to get there.

### Main Web Link:

Your main website link. This is the website page that will open when the "Web" button is tapped.

For example, "https://wildeyedpress.com.au/pages/the-wild-eyed-shop"

Optional – you may leave this box empty if you have no website

### Email:

Your email address. This is used when the "Email" button is tapped.

Optional – you may leave this box empty if you wish. If it is empty the "Email" button will not be shown.

### Phone Number:

Your phone number. This is used when the "Call" button is tapped.

Optional – you may leave this box empty if you wish. If it is empty the "Call" button will not be shown.

### Map Location:

Enter YES if you want the business/entry location to be shown on the map.

If you enter YES, the App author will show the location of this entry on the map. This will be displayed when the "Map" button is tapped.

Optional – you may leave this box empty if you wish. If it is empty or you enter "NO" the "Map" button will not be shown.

### Opening Hours:

Your opening hours, if applicable. Leave this blank if you wish.

Keep this short. It will look best if it fits on one line of the phone's screen.

Optional – you may leave this box empty if you wish. If it is empty the Opening Hours will not be shown.

### External Links:

In addition to the main web link that you entered near the top of this form, you can have up to 4 more links to any other webpages including business webpages and social media pages.

For example, a restaurant may have a link to a lunch menu. A gallery may have a link to an online shop. An accommodation provider may have a link to a bookings page.

Here are some examples:

o Title = Our Online Shop, weblink = <http://www.wildeyedpress.com.au/products>

**External Link One Title:**

**External Link One weblink:**

**External Link Two Title:**

**External Link Two weblink:**

**External Link Three Title:**

**External Link Three weblink:**

**External Link Four Title:**

**External Link Four weblink:**

## Photo Name:

Enter the name of a photo file (e.g. Tiny-Tea-Shop-Nannup-23.jpg). The photo must be provided along with this form. Please include your entry title in the photo file name.

If for example your business title is "Nannup Furniture Gallery", name your photo something like nannup\_furniture\_gallery\_1.jpg.

This makes it easier for the App authors to keep track of photos and reduces confusion that could be caused if different businesses provide identically named photos.

The photo must be a jpg file.

All entries must have photos with the same size ratio to make the App look excellent! So you need a photo with a ratio of width to height of 3 to 2. For example, a width of 1200 pixels and a height of 800 pixels.

Each edge of the photo must be 800 or more pixels in size. Provide the highest resolution photos file you can.

**Thank you for filling in the standard entry for the Experience Nannup App!**
