Dear Douglas Learmond,

Thank you for the opportunity to present this Quotation, I trust that it will meet the objectives required.

The ZW180-7 is more than a quality piece of equipment, it's an investment in the future success of your business.

At Hitachi Construction Machinery (Australia) Pty Ltd we believe that a machine is worth more than the initial purchase price, its true value lies in the many years of service that both the machine and the people supporting you can provide.

Our organisation focuses on your total machine ownership experience, not just the upfront sale. You will benefit from the support of more than 1250 employees and a company owned branch network that spans over 22 outlets nationally. Of our employees, 75% are dedicated to customer support roles. They understand the importance of machine up-time and are focussed on providing the products and services you need to remain productive.

Our Product Support Staff are connected into a Global Network that operates 24 hours a day, 365 days a year to ensure that the latest information is available. They can also assist you with protecting your investment and maximising its return with quality consumables and spare parts that will keep your equipment in optimum condition and reduce operating costs.

I look forward to discussing this with you in the near future and provide you with any further information.

Yours Sincerely,

Ben Crain
