

Attachment 8.1.1

The original application included converting the existing old shed into a function centre and constructing a new separate ablutions block for the camping grounds. The condition of the shed rendered it not suitable to be converted and the applicant requested that their approval be amended to combine the ablutions block and function centre into a new building on the same footprint as the old shed.

There were no changes to any of the conditions of the original approval other than the updated plans.
