SHIRE of NANNUP

To Whom it may concern,

RE. Application for development approval, 19-5-2022.

We have applied to the Shire for an Extractive Industry approval 5 months ago.

We have been informed all concerned parties have no objection to this except Main Roads WA.

Their objection was the condition of Red Gully road to allow access of B Double trucks.

We have asked Main Roads WA for a meeting to discuss the required works needed.

We are still waiting for them to let us know what works are required, as they need to sign off on them before the works start.

Until we get a response from the managers of Main Roads WA, we ask the Shire of Nannup to continue with the application.

Regards,

Lyndon and Beth Crouch.
