Minutes

1. DECLARATION OF OPENING/ANNOUNCEMENT OF VISITORS

The Deputy Shire President advised that the Shire President had submitted his apologies due to illness and that he would be Chairing the Meeting in his absence.

The Deputy Shire President declared the meeting open at 4:17pm.

2. RECORD OF ATTENDANCE/APOLOGIES/LEAVE OF ABSENCE

ATTENDANCE:

Deputy Shire President: Cr R Mellema

Councillors: C Gilbert, R Longmore, N Steer, A Slater, C Stevenson and P Fraser

Peter Clarke – Chief Executive Officer

Chris Wade – Manager Infrastructure

Tracie Bishop – Manager Corporate Services

APOLOGIES:

Cr A Dean

LEAVE OF ABSENCE:

Nil

VISITORS:

Mrs R Stallard, Mrs J Kay, Mrs Jan Brenkman & Mr Ian Gibb

3. RESPONSE TO PREVIOUS PUBLIC QUESTIONS TAKEN ON NOTICE.

Nil

4. PUBLIC QUESTION TIME:

The Deputy Shire President invited questions from the Public at: 4:18pm.

Mrs Rita Stallard

Q1: Is it true that the Nannup Waste Management Facility can no longer take plastic bags?

Manager Infrastructure responded:

A1. The Manager Infrastructure advised that the above question would be taken on notice and a formal response prepared in due course.

Q2: What % of recycling is currently sent through to Manjimup for processing

Manager Infrastructure responded:

A2: The Manager Infrastructure advised that the above question would be taken on notice and a formal response prepared in due course.

Q3: The Fire Brigade Training Track – The access to this track is not definable and as a result travellers to town would not be aware that they can use this track for parking. Can we have signage erected to make it more visible?

Manager Infrastructure responded:

A3: Both the Chief Executive Office and I have looked at the current setup of this track. The Mountable Kerb in place is accessible for vehicles – so no issue.

Q4: What happens “In Camera” and why is the public not involved in these processes.

Chief Executive Officer responded:

A4: The CEO assumed that Mrs Stallard was referring to the Information Sessions of Council and advised that these sessions are a means for Officers and Councillors to discuss issues that may be current or considered items that may need to be considered into the future and that no formal decisions occur within these sessions. Therefore they are not considered open meetings for the public. The CEO indicated that Council occasionally invites delegations to present at Information Sessions.

Public Question Time finished at 4.25pm

5. APPLICATIONS FOR LEAVE OF ABSENCE
Nil

6. PETITIONS/DEPUTATIONS/PRESENTATIONS
Nil

7. DECLARATIONS OF INTEREST
Nil

8. CONFIRMATION OF MINUTES OF PREVIOUS MEETINGS

16078 STEER/SLATER

That the Minutes of the Ordinary Council Meeting of the Shire of Nannup held in Council Chambers on 26 May 2016 be confirmed as a true and correct record.

CARRIED (7/0)

16079 FRASER/STEVENSON

That the minutes of the Special Council Meeting of the Shire of Nannup held in Council Chambers on 16 June 2016 be confirmed as a true and correct record.

CARRIED (7/0)

AGENDA NUMBER:	12.1
SUBJECT:	Town Oval
LOCATION/ADDRESS:	Shire of Nannup
NAME OF APPLICANT:	Shire of Nannup
FILE REFERENCE:	RES 9185
AUTHOR:	Chris Wade – Manager Infrastructure
REPORTING OFFICER:	Chris Wade – Manager Infrastructure
DISCLOSURE OF INTEREST:	
DATE OF REPORT:	13 June 2016

BACKGROUND:

The Nannup town oval is used for a multitude of organised and non-organised recreational activities throughout the year and in general is maintained to a high standard; though the weather plays a large part in this.

In recent months Council has received several verbal complaints regarding members of the public practising golf on the oval and leaving it in a damaged condition. Officers have also visually observed two people practicing golf (chipping) and removing divots on every shot and not replacing them.

COMMENT:

Officer made a management decision to erect a sign at each end of the oval advising members of the public that practising golf on the oval is no longer permitted. However the erection of the signs has been challenged by a member of the golf club who believes a local law is needed to erect signs similar to this.

Information was sought from The Department of Local Government who advised that as land managers (officers), signs can be erected, but to appease the person seek endorsement from Council and a later date when reviewing local laws it can be considered then.

As a side note the oval also has a sign at each end stating NO UNAUTHORISED VEHICLES ON OVAL.

The erection of the signs does not have any impact on the golf club and players playing on the course who accidently hit a ball onto the oval. It is purely to stop practising and make a safe environment for other oval users from a risk management perspective.

STATUTORY ENVIRONMENT: Nil.

POLICY IMPLICATIONS: Nil.

FINANCIAL IMPLICATIONS:

STRATEGIC IMPLICATIONS: Nil

RECOMMENDATION:

Council endorse the erection of signage on the town oval on an as needed basis that managers believe necessary and to be followed by notification to Council.

VOTING REQUIREMENTS: Simple Majority

16080 LONGMORE/SLATER

Council endorse the erection of signage on the town oval on an as needed basis that managers believe necessary and to be followed by notification to Council.

CARRIED (7/0)

The Deputy Shire President advised that prior to considering the adoption of the 2016/2017 Budget, Council should give due consideration to the presentation by the Lower Donnelly River Conservation Association Council at the Information Session prior to this meeting in respect to the proposed rating of the Donnelly River Leases and the Associations objections to same. The Deputy Shire President advised that if Council reversed its previous decision to rate the Leases, it would require Council to re-consider the 2016/2017 Budget in respect to rating income.

SUSPENSION OF STANDING ORDERS

16081 STEVENSON/SLATER

That Standing Orders be suspended to allow Councillors to consider the presentation and points raised by the Lower Donnelly River Conservation Association opposing the proposed rating of the Donnelly River Leases in the 2016/2017 Budget.

CARRIED 7/0

At this time, Councillors considered in depth the presentation by Mr Tony Ryan on behalf of the Lower Donnelly River Conservation Association in respect to Councils previous decision to rate the Donnelly River Hut Leases from 1 July 2016.

RESUMPTION OF STANDING ORDERS

16082 STEER/SLATER

That Council resumes Standing Orders.

CARRIED 7/0

RATING OF DONNELLY RIVER HUT LEASES

16083 GILBERT/MELLEMA

That Council, in having carefully considered the points raised by the deputation of the Donnelly River Conservation Association, which represents the Lease Holders of the Donnelly River, objecting to Council imposing Shire rates on the Donnelly River Hut Leases beyond 1 July 2016, resolves to continue with its previous decision to apply appropriate rating to the leases at Donnelly River.

CARRIED BY ABSOLUTE MAJORITY 7/0

AGENDA NUMBER:	12.2
SUBJECT:	2016/17 Budget Adoption
LOCATION/ADDRESS:	Nannup
NAME OF APPLICANT:	Shire of Nannup
FILE REFERENCE:	FNC 3
AUTHOR:	Tracie Bishop – Manager Corporate Services
REPORTING OFFICER:	Tracie Bishop – Manager Corporate Services
DISCLOSURE OF INTEREST:	Nil
DATE OF REPORT:	19 June 2016
ATTACHMENTS:	12.2.1 - Budget Schedules 2016/17 12.2.2 – Fees & Charges 2016/17

BACKGROUND:

The 2016/17 Budget is presented to Council for adoption and setting of rating levels.

COMMENT:

Further to the budget workshops and the Draft Budget meeting all changes have been incorporated into this document. The 2016/17 Budget has been prepared to include a 3.98% increase in the rate in the dollar.

A balanced budget with an anticipated \$0 surplus at year end has been prepared and have been converted into the required statutory format for final adoption.

The following recommendations are required by Council to formally adopt the 2016/17 Budget.

STATUTORY ENVIRONMENT:

Local Government Act 1995 and Local Government (Financial Management) Regulations 1996.

Section 6.2 of the Local Government Act stipulates that no later than 31 August each financial year or such extended time as the Minister allows each local government is to prepare and adopt by absolute majority in the form and manner prescribed a budget for its municipal fund for the financial year ending on the next following 30 June.

POLICY IMPLICATIONS: Nil.

FINANCIAL IMPLICATIONS:

The financial implication is a rate requirement for 2016/17 of \$1,508,524.

STRATEGIC IMPLICATIONS:

The adoption of the proposed 2016/17 budget is the cornerstone of developing the long term financial sustainability of the Shire.

Council's Corporate Strategic Plan was considered when formulating the budget.

RECOMMENDATION:

That the following proposed recommendations be endorsed by Council.

Recommendation One – Rate in the Dollar and Minimum rates applied:

That Council impose the following Rates & Charges

Rate Type	Minimum Rate in \$	Rate in \$	Yield
GRV	\$820	0.078950	\$ 771,280
UV	\$1050	0.004480	\$ 738,474
			\$1,509,754

Voting Requirements: Absolute Majority

16084 STEER/LONGMORE

Rate in the Dollar and Minimum rates applied:

That Council impose the following Rates & Charges

<i>Rate Type</i>	<i>Minimum Rate in \$</i>	<i>Rate in \$</i>	<i>Yield</i>
<i>GRV</i>	<i>\$820</i>	<i>0.078950</i>	<i>\$ 771,280</i>
<i>UV</i>	<i>\$1050</i>	<i>0.004480</i>	<i>\$ 738,474</i>
			<i>\$1,509,754</i>

CARRIED BY ABSOLUTE MAJORITY (7/0)

Recommendation Two – Dates for payments in full and by instalments

Pursuant to Section 6.45 of the Local Government Act 1995 and regulations 64(2) of the Local Government (Financial Management) Regulations 1996, Council nominates the following due dates for payment in full by instalments:

- | | |
|--|------------|
| • Full Payment and 1st instalment due: | 23/09/2016 |
| • 2nd Quarterly Instalment due | 23/11/2016 |
| • 3rd Quarterly Instalment due | 23/01/2017 |
| • 4th Quarterly Instalment Due | 27/03/2017 |

Voting Requirements: Absolute Majority

16085 SLATER/STEVENSON

Dates for payments in full and by instalments

Pursuant to Section 6.45 of the Local Government Act 1995 and regulations 64(2) of the Local Government (Financial Management) Regulations 1996, Council nominates the following due dates for payment in full by instalments:

- | | |
|--|------------|
| • Full Payment and 1st instalment due: | 23/09/2016 |
| • 2nd Quarterly Instalment due | 23/11/2016 |
| • 3rd Quarterly Instalment due | 23/01/2017 |
| • 4th Quarterly Instalment Due | 27/03/2017 |

CARRIED BY ABSOLUTE MAJORITY (7/0)

Recommendation Three – Interest and Penalties

- Council charge an 11% penalty charge per annum, calculated by simple interest on rates paid after the 35th day of service of the rates notice in accordance with the Local Government Act 1995;
- Council charge a \$5 Administration Fee per remittance notice, per instalment, for rates levied in the 2016/17 financial year in accordance with the Local Government Act 1995;
- Council charge a 5.5% interest charge per annum, calculated by simple interest on instalment payments for rates levied in the 2016/17 financial year in accordance with the Local Government Act 1995;
- Council charge a 5.4% interest charge per annum, calculated by simple interest on deferred rates held after 1 July 2016 in accordance with the requirements stipulated by the Office of State revenue.

Voting Requirements: Absolute Majority

16086 STEVENSON/SLATER

SHIRE PRESIDENT'S MESSAGE

2016/2017 BUDGET

On behalf of my fellow Councillors, I am pleased to present this message as Shire President to the residents of the Shire of Nannup on the content of the 2016/2017 Annual Budget.

I mentioned last year that the 2016/2017 year would be a year of consolidation following a very active 2015/2016 financial year with major projects being undertaken. Whilst this is the case, it has not meant that everything has come to a standstill, the 2016/2017 Budget still maintains the excellent services that are delivered to the residents of the district and contains a number of initiatives and projects that will be delivered throughout the course of the year.

One major project that has been canvassed by residents for a number of years is the implementation of a Rural Numbering System (RNS) for the Shire of Nannup. The RNS is primarily designed to provide immediate identification of properties in times of emergency. Council has allocated an amount of \$25,000 in the 2016/2017 Budget to commence this process, which will entail the identification of all properties within the Shire and the special lot numbers to be allocated. Phase 2 of the project, which will be undertaken in the 2017/2018 Budget will be providing the physical signage to each property. Council was hoping to deliver this project in its entirety this year and had applied for grant funding to assist it in this regard but unfortunately the grant funds were not forthcoming.

With the appointment of one of Council's employees as a part time Ranger in the 2015/2016 financial year, which alleviated the need for Council to rely on engaging the services of the City of Busselton in providing contract Ranger services at a cost, the need for a pound to impound stray dogs has been necessary and Council will now construct such a facility at its Nannup Shire Depot. The previous practice of tying up stray dogs at the Council offices and then relying on staff to take the animal home for any reason, i.e. the dog had not been claimed, was not a practical solution. Therefore, Council has allocated \$10,000 for the construction of this facility this coming financial year.

Council has acknowledged the wonderful work that the Nannup Music Festival and Flower Garden Festival Organising Committee's do to present quality Festivals for the Nannup community that does have significant benefits to the economy of the Shire. Council has recognised that funding streams to Festival Organising Committees has diminished through the ever increasing freeze of State Government Funds in the current economic climate and therefore, each Organising Committee has been granted an additional \$3,000 in funding for the 2016 and 2017 events respectively. Council is cognisant that the Organising Committee's must remain viable in their own right and will need to adjust their Events to suit income streams, but it was considered that their importance to Nannup to attract visitors to our town and Shire at this time warrants additional financial assistance.

In the 2016/2017 financial year Council will provide \$5,000 to the Lower Blackwood Vertebrate Pest Management Committee to assist it in the Feral Pig Control Program. The Committee does receive State Government assistance to engage contractors to cull feral pigs however, this is not a huge amount and Council wished to assist the

Committee in this regard as it has been acknowledged that there is a real problem with an increase in the feral pig population in the Shire of Nannup.

The continual freeze of the indexation to the annual Financial Assistance Grant (FAGs) from the Federal Government over a three year period has had a significant financial impact on Local Governments throughout the State, and in the Shire of Nannup's case, the freeze has effectively seen a reduction of approximately \$250,000 of funding over this period. For a Shire with a minimal rate base, this loss of funding has meant that Council has had to cut its cloth to suit to meet this reduction in funding. Council still acknowledges the importance of the current annual FAG's funding of \$1,300,000 (consisting of \$800,000 General Purpose Funding and a \$500,000 Road component) which provides Council with the opportunity to continue to provide the delivery of important services and community infrastructure during the year. It is hoped that following the 2 July Federal Election, the incoming Government will reverse the freeze to the indexation to allow local governments to keep pace with the ongoing demand.

The 2016/2017 financial year has seen a revaluation for Unimproved Valuations (UV's) and Gross Rental Valuations (GRV's) across the Shire. UV's undergo annual revaluations with GRV's being undertaken normally every 3 years. UV's fell by an average of 2% however this decrease was not across of the whole of the Shire as some properties had no movement in value at all. On the other hand, the GRV revaluation saw an overall increase of 21.87% with Landgate, the valuing authority, advising the increases are a result of market increases in sales and rentals since the last review.

Council in developing its 2016/2017 Budget identified the need for \$1,508,524 to be sought from Rates having considered all of its expenditure and income requirements. Based on the above UV and GRV figures and fluctuations, it necessitated an average rate increase of 3.98%. I need to stress that 3.98% is an average and some rate payers will receive a higher increase than the average due to their UV or GRV revaluation. All in all, a 3.98% average rate increase is a good result in this current economic climate. Council and staff worked hard to minimise increases and will continue to manage the Shires financial affairs in a responsible manner. I would urge rate payers to discuss any concerns that they have with their 2016/2017 rate notice with Council's management team.

Council has maintained a very robust road works program in the 2016/2017 financial year through funding via Roads to Recovery, FAGs and Council's own financial resources. Council's Manager for Infrastructure is responsible for this program and would be more than happy to discuss any aspects regarding the upcoming program of works.

I would urge all residents to query any aspects of the 2016/2017 Budget directly with Council's management team who would only be too pleased to provide explanation. I sincerely thank my fellow Councillors and staff for their considerable input over a number of months in delivering what I believe is a Budget that meets the requirements to maintain the delivery of services for rate payers and residents of our Shire.

Tony Dean
Shire President

CHIEF EXECUTIVE OFFICER'S

2016/2017 BUDGET REPORT

It does not seem that 12 months have elapsed since my last report to the community on the outcomes of the Budget deliberations by Council. The 2015/2016 year was an extremely busy one for Council and staff with the completion of the Recreation Centre Function Room and refurbishment to existing facilities and the completion of the first stage of the Main Street Upgrade project. With the Shire President reporting that the 2016/2017 Budget will be one of consolidation, it does continue to provide sound financial management to meet the expectations of service delivery and projects during the course of the coming 12 months.

Council has maintained its commitment to its Reserve Funds in the 2016/2017 financial year to ensure that it has the necessary backup funds should the need be required. Its Asset Management Reserve and Plant Reserve Funds will remain with predicted healthy balances of \$450,000 and \$340,000 respectively at year end. Other Reserve Funds for specific purposes have also been managed to enable future planning, with the Main Street Reserve Fund being set aside for Stage 2 of the southern section of Warren Road being scheduled in the 2017/2018 financial year.

A major cost for Council in its Budget is the ongoing costs associated with the management of waste removal and the Waste Management Facility itself. In 2014/2015 Council introduced a levy on ratepayers via the Waste Avoidance and Resource Recovery Act 2007 (WARR Act) as a means of recouping such costs which was widely accepted by the community as a necessity for this purpose. There was however an anomaly for rural based ratepayers with multiple properties where the levy was imposed for each property. Council has rectified this anomaly in the 2016/2017 Budget through the adoption of a Policy that will provide exemptions from multiple Waste Management Fees to rate payers under certain conditions and criteria. Property owners who believe that they may fit the criteria required to have the exemption applied will be required to state in writing the reasons for such exemption. There has however been an increase in the levy to \$53.00 in the 2016/2017 Budget to recognise the ongoing costs associated with waste management. Increases have also been imposed on kerb side removals in the residential areas for similar reasons. It is Council's intention to eventually make waste management totally cost recoverable in order that these costs are not being impacted upon the normal income streams and increases in the above areas will continue in coming years to achieve the cost recoverable status.

It never ceases to amaze me at the amount of paper that is consumed in the preparation of reports and agendas to Council and to alleviate the costs associated with such consumption, staff recommended to Council that it goes as paperless as possible through the introduction of a software program where all information will be provided via electronic means.

Whilst there are initial costs associated with the purchase of the software program and associated hardware in the 2016/2017 Budget, the long term savings on paper will be realised and this has been proven at our neighbouring Councils with the introduction of similar programs.

As reported by the Shire President, the average rate increase for the 2016/2017 financial year of 3.98% is a good outcome based on the level of services provided and the continued expectations of the community to deliver projects and services. I would

encourage residents to peruse the Budget document and to direct any areas of concern to the relevant Managers or myself for clarification.

I would like to particularly thank Ms Tracie Bishop, Council's Manager Corporate Services, for the work that she has put in preparing the Budget documentation throughout the whole process, which commenced early in the 2016 calendar year. I also thank all Councillors and Mr Chris Wade, Manager for Infrastructure, for their support during this period in order that a well balanced Budget could be delivered for the 2016/2017 financial year.

Peter Clarke
Chief Executive Officer

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

1. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies which have been adopted in the preparation of this budget are:

(a) Basis of Preparation

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this budget are presented below and have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the budget has also been prepared on the accrual basis modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

(b) The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 16 to this budget document.

(c) 2016/17 Actual Balances

Balances shown in this budget as 2016/17 Actual are as forecast at the time of budget preparation and are subject to final adjustments.

(d) Rounding Off Figures

All figures shown in this budget, other than a rate in the dollar, are rounded to the nearest dollar.

(e) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions.

Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

(f) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a Gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

(g) Superannuation

The Council contributes to a number of Superannuation Funds on behalf of employees. All funds to which the Council contributes are defined contribution plans.

(h) Cash and Cash Equivalents

Cash and cash equivalents include cash-on-hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown as short term borrowings in current liabilities in the statement of financial position.

(i) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

(j) Inventories

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

Land Held for Resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

(k) Fixed Assets

When performing a revaluation, the Shire uses a mix of both independent and management valuations using the following as a guide:

Fair Value is the price that the Shire would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset i.e. the market with the greatest volume and level of activity for the asset or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period ie the market that maximises the receipts from the sale of the asset after Taking into account transaction costs and transport costs.

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

(k) Fixed Assets (Continued)

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Shire selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Shire are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Shire gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

(k) Fixed Assets (Continued)

which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

The mandatory measurement framework imposed by the *Local Government (Financial Management) Regulations* requires, as a minimum, all assets to be revalued at least every 3 years. Relevant disclosures, in accordance with the requirements of Australian Accounting Standards have been made in the budget as necessary.

Land Under Control

In accordance with Local Government (Financial Management) Regulation 16(a), the Council was required to include as an asset (by 30 June 2013), Crown Land operated by the local government as a golf course, showground, racecourse or other sporting or recreational facility of state or regional significance.

Upon initial recognition, these assets are recorded at cost in accordance with AASB 116. They are then classified as Land and revalued along with other land in accordance with the other policies detailed in this Note. Whilst they are initially recorded at cost (being fair value at the date of acquisition [deemed cost] as per AASB 116) they are revalued along with other items of Land and Buildings.

Initial Recognition and Measurement between Mandatory Revaluation Dates

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this approximates fair value. They will be subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework detailed above.

Revaluation

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

(k) Fixed Assets (Continued)

Transitional Arrangements

During the time it takes to transition the carrying value of non-current assets from the cost approach to the fair value approach, the Council may still be utilising both methods across differing asset classes.

Those assets carried at cost will be carried in accordance with the policy detailed in the ***Initial Recognition*** section as detailed above.

Those assets carried at fair value will be carried in accordance with the ***Revaluation*** Methodology section as detailed above.

Land Under Roads

In Western Australia, all land under roads is Crown land, the responsibility for managing this is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 Land Under Roads and the fact Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Council.

Capitalisation Threshold

Expenditure on items of equipment under \$2,000 is not capitalised; rather, it is recorded in an asset inventory listing.

Assets may also be capitalised where they can be easily grouped and where the total value of the assets so grouped exceeds the \$3,000 threshold.

Depreciation of Non-Current Assets

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

Major depreciation periods used for each class of depreciable asset are:

Buildings	30 – 100 years	Straight Line
Furniture and Equipment	4 - 20 years	Straight Line
Office Equipment	5 years	Straight Line
Plant and Equipment	5 - 20 years	Straight Line
Sealed roads and streets		
• formation		Not Depreciated
• pavement	80 years	Straight Line
• seal		
- bituminous seals	34 years	Straight Line
- asphalt surfaces	43 years	Straight Line
Kerbs	100 years	Straight Line
Parks & Gardens	50 years	Straight Line
Footpaths - slab	50 years	Straight Line
Water supply piping and drainage systems	75 years	Straight Line

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Within Infrastructure Assets, pavement and seals, the depreciation rates have been extended from previous years. In both of these layers of infrastructure there remains a portion that will be reused when the actual pavement or seal reach the end of their useful lives. To allow this portion to be included within depreciation the actual timeframe attached to each asset has been extended to therefore lower overall depreciation of this asset.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained surplus.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

(I) Fair Value of Assets and Liabilities

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following as a guide:

Fair Value is the price that Council would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (i.e. the market with the greatest volume and level of activity for the asset or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

(l) Fair Value of Assets and Liabilities (continued)

Valuation techniques

The Council selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured.

The valuation techniques selected by the Council are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Council gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and is considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

As detailed above, the mandatory measurement framework imposed by the Local Government (Financial Management) Regulations requires, as a minimum, all assets carried at a revalued amount to be revalued at least every 3 years.

(m) Financial Instruments

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the Council becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Council commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

(m) Financial Instruments (continued)

Classification and Subsequent Measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method, or cost.

Amortised cost is calculated as:

- (a) the amount in which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments and any reduction for impairment;
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest rate method.

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

(i) *Financial assets at fair value through profit and loss*

Financial assets at fair value through profit or loss are financial assets held for trading for the purpose of short term profit taking. Assets in this category are classified as current assets. Such assets are subsequently measured at fair value with changes in the carrying amount being included in profit or loss.

(ii) *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Loans and receivables are included in current assets where they are, expected to mature within 12 months after the end of the reporting period.

(ii) *Held-to-maturity investments*

Held-to-maturity investments are non-derivative financial assets with fixed maturities and fixed or determinable payments that the Council's management has the positive intention and ability to hold to maturity. They are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Held-to-maturity investments are included in current assets where they are expected to mature within 12 months after the end of the reporting period. All other investments are classified as non-current.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

(m) Financial Instruments (continued)

(iv) *Available-for-sale financial assets*

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with changes in such fair value (i.e. gains or losses) recognised in other comprehensive income (except for impairment losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are included in current assets, where they are expected to be sold within 12 months after the end of the reporting period. All other available for sale financial assets are classified as non-current.

(v) *Financial liabilities*

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in the profit or loss.

Impairment

A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events having occurred, which will have an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial instruments, a significant or prolonged decline in the market value of the instrument is considered a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value is reclassified to profit or loss at this point.

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

(m) Financial Instruments (continued)

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

Derecognition

Financial assets are derecognised where the contractual rights for receipt of cash flows expire or the asset is transferred to another party, whereby the Council no longer has any significant continual involvement in the risks and benefits associated with the asset.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

(n) Impairment of Assets

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another standard (e.g. AASB 116) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other standard.

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

At the time of adopting this budget, it is not possible to estimate the amount of impairment losses (if any) as at 30 June 2016.

In any event, an impairment loss is a non-cash transaction and consequently, has no impact on this budget document.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

(o) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

(p) Employee Benefits

Short-Term Employee Benefits

Provision is made for the Council's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Council's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Council's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Other Long-Term Employee Benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any re-measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Council's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Council does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

(q) Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

(r) Provisions

Provisions are recognised when the Council has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(s) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle.

In the case of liabilities where the Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non-current based on the Council's intentions to release for sale.

(t) Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current budget year.

(u) Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in this budget document relate to the original budget estimate for the relevant item of disclosure.

(b) Statement of Objectives

Vision

To foster a community that acknowledges its heritage, values and lifestyles, whilst encouraging sustainable development.

Mission Statement

The Shire of Nannup will deliver quality services, facilities and representation in order to achieve our Vision.

Council operations as disclosed in this report encompass the following service orientated activities/programs:

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

2. REVENUE AND EXPENSES (continued)

(b) Statement of Objectives (continued)

GOVERNANCE

Objective: To provide a decision making process for the efficient allocation of scarce resources.

Activities: Administration and operation of facilities and services to members of council; other costs that relate to the tasks of assisting elected members and ratepayers on matters which do not concern specific council services.

GENERAL PURPOSE FUNDING

Objective: To collect revenue to allow for the provision of services.

Activities: Rates, general purpose government grants and interest revenue.

LAW, ORDER, PUBLIC SAFETY

Objective: To provide services to help ensure a safer community.

Activities: Supervision of various by-laws, fire prevention, emergency services and animal control.

HEALTH

Objective: To provide an operational framework for good community health.

Activities: Food quality, building sanitation and sewage.

EDUCATION AND WELFARE

Objective: To provide services to disadvantaged persons, the elderly, children and youth.

Activities: Operation of pre-school, provision of youth support.

HOUSING

Objective: Help ensure adequate housing.

Activities: Maintenance of staff and rental housing.

COMMUNITY AMENITIES

Objective: Provide services required by the community.

Activities: Rubbish collection services, operation of tip, noise control, administration of the town planning scheme, maintenance of cemetery and maintenance of public conveniences.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

2. REVENUE AND EXPENSES (continued)

(b) Statement of Objectives (continued)

RECREATION AND CULTURE

Objective: To establish and manage efficiently infrastructure and resources which will help the social well being of the community.

Activities: Maintenance of halls, recreation centre and various reserves; operation of library.

TRANSPORT

Objective: To provide effective and efficient transport services to the community.

Activities: Construction and maintenance of streets, roads, bridges; cleaning of streets, depot maintenance.

ECONOMIC SERVICES

Objective: To help promote the Shire and improve its economic wellbeing.

Activities: Assistance to tourism, area promotion, building control, noxious weeds, vermin control.

OTHER PROPERTY AND SERVICES

Objective: To accurately allocate plant and labour costs across the various programs of Council.

Activities: Private works operations, plant repairs and operations costs.

All of the reserve accounts are supported by money held in financial institutions and match the amounts shown as restricted cash of this financial report.

In accordance with council resolutions in relation to each reserve account, the purpose for which the funds are set aside are as follows:

Long Service Leave Reserve: An accounting requirement to fund long service leave accumulated by employees.

Office Equipment Reserve: To be used to ensure that the equipment required for Shire administration and the supporting computer system is maintained.

Asset Management Reserve: To provide funding for works to Shire buildings as determined by the Asset Management Plan.

Rates Equalisation Reserve: To provide support to the 2016/17 budget to minimise the impact of the loss of capital grants on the completion of Mowen Road.

Emergency Management Reserve: To provide funding for costs of dealing with local emergencies, where those costs cannot be recovered from another party.

Aged Housing Reserve: to be used to facilitate the development of Aged Housing.

Refuse Site Rehabilitation Reserve: To provide funding for the rehabilitation of the refuse disposal site once it reaches the end of its useful life.

Recreation Centre Reserve: To be used for the construction of stage two the new recreation centre.

Plant Reserve: Used for the purchase of major plant.

Gravel Pit Reserve: to be used for the rehabilitation of the gravel pit at the end of its useful life.

Main Street Upgrade Reserve: To be used to support the project to upgrade stage two the main street of Nannup.

FOR THE YEAR ENDING 30TH JUNE 2017**

8. RATING INFORMATION - 2016/17 FINANCIAL YEAR (Cont)

All land except exempt land in the Shire of Nannup is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire.

The general rates detailed above for the 2016/17 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the Local Government services and facilities.

9. SPECIFIED AREA RATE - 2016/17 FINANCIAL YEAR

No specified area rates will be applied for the year ending 30 June 2017.

10. SERVICE CHARGES - 2016/17 FINANCIAL YEAR

The Shire of Nannup does not propose to impose any service charges for the year ending 30 June 2017.

11. INTEREST CHARGES AND INSTALMENTS - 2016/17 FINANCIAL YEAR

An interest rate of 11% will be charged on all rate payments that are late. It is estimated that this will generate income of \$12,000.

Three options are available to ratepayers for payment of their rates:

Option 1 – Full Payment

The full amount of rates and charges, including arrears, to be paid on or before 23 September 2016 or 35 days after the issue date of the notice, whichever is the later.

Option 2 – Four Instalments

The first instalment, including arrears to be received on or before 23 September 2016 or 35 days after the issue date of the notice, whichever is later. Subsequent payments to be made at intervals of two months from the date of the first instalment. The cost of the instalment plans will comprise simple interest of 5.5% per annum calculated from the date that the first instalment is due, together with an administration fee of \$5 for each instalment notice (i.e. \$15 in total).

The total revenue from the imposition of the interest and administration charge under this option is estimated to be \$8,400, comprising \$4,500 in interest charges and \$3,900 in administration charges.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017**

11. INTEREST CHARGES AND INSTALMENTS - 2016/17 FINANCIAL YEAR (Cont)

Option 3 – Payment Plan

Payment plans are agreements entered between ratepayers and The Shire of Nannup which allow ratepayers to pay rates weekly/monthly/fortnightly directly from their chosen bank account. These plans attract \$0 penalty interest and \$0 administration fees thereby collecting no revenue from this option.

Actual instalment dates are as follows:

Instalment 1	23 September 2016
Instalment 2	23 November 2016
Instalment 3	23 January 2017
Instalment 4	27 March 2017

12. DISCOUNTS, INCENTIVES, CONCESSIONS, & WRITE-OFFS - 2016/17 FINANCIAL YEAR

1. Council Buildings Hire

Currently Council policy ADM7 details the criteria and the list of local organisations for which hire charges for the use of the function room are waived. A copy of this policy can be viewed on request.

2. Incentive Scheme – Rates

The Council does not offer an incentive scheme for the early payment of rates.

3. Discounts

No discount is offered in relation to any rates, service charge or fees and charges.

4. Write Offs

The budget includes sums for the write off of irrecoverable income. A sum of \$100 is budgeted for rates and \$200 for library books.

17. MAJOR LAND TRANSACTIONS

Council does not propose to engage in any major land transactions during the 2016/17 financial year.

18. TRADING UNDERTAKINGS AND MAJOR TRADING UNDERTAKINGS

It is not anticipated that any trading undertakings or major trading undertakings will occur in the 2016/17 financial year.

**SHIRE OF NANNUP BUDGET
FOR THE YEAR ENDING 30TH JUNE 2017
SUPPLEMENTARY INFORMATION**

OVERVIEW

Introduction

This budget has been developed taking into consideration the Long Term Financial Plan and Corporate Business Plan to ensure sustainability and to meet the expectations of the community. This budget has been developed to achieve a minimum rate increase while ensuring all liabilities are met by Council.

Budget Assumptions

In compiling the base budget an assessment of probable levels of inflation and interest rates has been taken. Reasonable account has been taken of known or anticipated price increases and other committed expenditure. Inflation of 2.0% has been added to the base level of expenditure where confirmed price increases are not known.

Council has a degree of control over the main areas of uncertainty in the budget and should therefore be able to moderate its exposure to significant variations through the decisions taken during the budget process. However, the unpredictability of many of the factors influencing the Council's budget remains a risk and this is addressed through prudent estimates.

There are three major factors affecting the revenue budget:

- (a) The base budget for 2016/17 includes income from fees and charges of approximately \$342,762 however these are not guaranteed.
- (b) Council receives significant income from investment interest. As interest rates decline and grant income falls this has decreased from previous periods. A decrease of \$60,000 has been assumed in the draft 2016/17 budget. This loss of interest earnings is a direct result in capital projects being completed and as such reserve balances lowering.
- (c) Council does not maintain a general level of working balances which can absorb unexpected fluctuations in its income and expenditure. In the event that there are significant adverse variations during the year money would need to be released from other earmarked reserves to cover any shortfall.

In the light of the assumptions made in compiling these estimates and reflected in the recommendation it is considered that the budget as presented is sufficient to meet the liabilities facing the Council during 2016/17.

Changes to the Budget

The Base Budget for 2016/17 represents the cost of carrying out the same level of activity as in 2016/17. After taking into account the costs associated with the removal of capital grant income and including inflationary increases for this financial year the base budget income required lowered from previous year. However, the Base Budget also

needs to be revised to accommodate other inclusions of services and works that will occur throughout the course of this financial year some as permanent inclusions, others as a one off inclusion into the budget. During the Budget workshops a number of projects/options were investigated with the result some off these being eliminated from the 2016/17 budget and others included based on priority and merit. The basis of whether a request was included or excluded is a result of financial constraints and whether or not the expenditure was considered necessary for this upcoming financial period.

Overall, within the budget for 2016/17 there have been savings made wherever possible. Taking all factors into consideration there is a net committed increase of 3.98%

Reserves

The budget process provides an opportunity for Council to assess the adequacy of its reserves. Council maintains a number of Reserves set up for specific purposes.

For the past three years reserve contributions have been made to the Asset Management Reserve to ensure that when required maintenance can be completed on Council's buildings and infrastructure. This continues to be a requirement of Council however it is considered that the previous level of reserve contribution can be lowered for this financial year to ensure that increases to overall budget are minimised as much as possible. Contribution included within the 2016/17 budget is \$100,000 which ensures that this reserve maintains a healthy balance of \$532,416.

The Plant Reserve is also an area of concern. When looking at long term projection based on current levels of reserve contributions each financial year there will come a point in time where the reserve fund will not be sustainable in terms of plant purchases required. In the past few years Council has been fortunate to have capital contribution by way of Mowen Road income which has helped to contribute towards this reserve fund however now that this project has finished all contributions will come from prudent savings and the operating budget each year. For the 2016/17 financial year a contribution of \$123,000 is included which represents an increase of \$31,000 from previous years. This will need to be closely monitored and adjusted in years to come

Funding Corporate Priorities

As part of the 2016/17 business planning process, Council has identified growth within its service areas. The identified projects have been considered and prioritised by Council and reviewed in the budget workshops.

A further three bridges will be included within our insurance schedule for the 2016/17 period. This is in keeping with Council's decision to stage insurance coverage of bridges under the Shire of Nannup's control over a four year period. Overall increase to the budget to cover these three bridges is \$5,801.

To ensure that our caravan parks within the town are compliant money will be spent on firehose reels. These will be used within emergency management of these facilities and is a requirement of the Caravan Parks and Camping Grounds Regulations 16997.

Also within Emergency Management a sum of \$25,000 has been included as an initial contribution to the Rural Numbering System. Rural property numbers are a clear and logical way of locating a property and provide significant benefits to the community. In an emergency, every second counts. A Rural Property Address helps emergency services locate a property more quickly and precisely.

Biosecurity was an area that was considered within the 2016/17 budget. Included is a \$5,000 contribution towards the Feral Pig Program.

There were numerous Community group requests for contributions to ensure that their service could be continued these have all been considered on a case by case basis and wherever possible funding to continue to support these groups has been included within the budget.

A number of smaller items are included in the proposed budget to support existing council services and details of all the proposed changes to the budget are set out in the attachment. After taking these bids into account the overall increase in the budget is 3.98%.

Prospects for the Future

The model underpinning the Long Term Financial Plan (LTFP) demonstrates that rates would need to increase by 3% in 2017/18 and 2% in 2018/19. Based on these projections, current forecasts suggest that the financial position will stabilise from this financial year forward. This projection is made with the assumption that current levels of Federal and State funding for our Roads Programs and Equalisation Grants remain as expected. An annual review of our Long Term Financial Plan will help to identify any areas of concern or savings that can be enacted in the upcoming years. This review of the Long Term Financial Plan is planned for early in the new financial year.

Conclusion

The proposed rate requirement is \$1,508,524, an increase of 3.98% on 2015/16. The budget presented for adoption assumes a balanced budget, in that the Council will not end the 2016/17 financial year with either a surplus or deficit.

While the current projection is that Council is in a stable position and that rate increases should be contained at a level under 4% for upcoming years. This however will need to be monitored and adjusted as required based on funding requirements and projects required in future periods. The proposed 2016/17 budget is considered, after taking all the above factors into account, sufficient to meet the liabilities facing the Council during 2016/17.

TOWN PLANNING DEVELOPMENT APPLICATIONS

Charge & Comment		STATUTORY	GST	2016/17
Determination of a development application where the estimated cost of the development is:				
a) No more than \$50,000		Y	N	\$147
b) More than \$50,000 but not more than \$500,000		Y	N	0.32% of the estimated cost of the development \$1,700 + 0.257% for every \$1 in excess of \$500,000
c) More than \$500,000 but not more than \$2.5 million		Y	N	\$7,161 + 0.206% for every \$1 in excess of \$2.5M
d) More than \$2.5 million but not more than \$5 million		Y	N	\$12,633 + 0.123% for every \$1 in excess of \$5 million
e) More than \$5 million but not more than \$21.5 million		Y	N	\$34,196
f) More than \$21.5 million		Y	N	

Note: If the development has commenced or being carried out prior to approval, an additional amount, by way of penalty that is twice the amount of the maximum fee payable for determination of the application under Parts (a), (b), (c), (d), (e) and (f) will be added to base rate.

Single Dwelling (where Planning Approval required)	N	N	\$147
Additions to Single Dwelling (where Planning Approval required)	N	N	\$147
Second Dwelling for Rural Purposes	N	N	\$147
Ancillary Accommodation/Granny Flat/Caretakers Dwelling	N	N	\$147

Notes:

- Applications that are subject to Development Assessment Panels will attract an additional fee at the rate set out in Schedule 1 to the Planning and Development (Development Assessment Panels) Regulations 2011
- Applicants are to provide details of estimated cost of development (includes any car parking, effluent disposal, landscaping features, etc).
- Delegated Authority has been provided to the CEO to determine the value of proposed development. If applicants disagree with the estimate made by the Shire reconsideration can be requested if evidence of the cost of development can be provided. If applicants still dispute the estimated cost determined by the Shire the matter can be referred to the Fees Arbitration Panel (WAPC WAMA) for determination.
- The costs of advertising and any specialist reports will be an additional cost

MISCELLANEOUS DEVELOPMENT APPLICATIONS

Charge & Comment		STATUTORY	GST	2016/17
Extractive Industry		Y	N	\$739
Plantations		N	N	0.32% of the estimated value
Relocation of a Building Envelope		N	N	\$126
Setback Reduction (in addition to other fees)		N	N	\$126
a) For a certificate under Section 5B(2)		N	N	Minimum \$100
b) For a certificate under Section 8A(f) or 9(3)		N	N	Minimum \$100
c) For a Form 7 certificate		N	N	\$0.20 per square metre of building floor area (min \$100)
Sign Application Fee		N	N	\$153

Note: The estimated value of plantations will be calculated at a rate of \$1,300 per hectare of planted area.

1. Applications that are subject to Development Assessment Panels will attract an additional fee at the rate set out in Schedule 1 to the Planning and Development (Development Assessment Panels) Regulations 2011
2. Applicants are to provide details of estimated cost of development (includes any car parking, effluent disposal, landscaping features, etc).
3. Delegated Authority has been provided to the CEO to determine the value of proposed development. If applicants disagree with the estimate made by the Shire reconsideration can be requested if evidence of the cost of development can be provided. If applicants still dispute the estimated cost determined by the Shire, the matter can be referred to the Fees Arbitration Panel (WAPC WAMA) for determination.

CHANGE OF USE

Charge & Comment	STATUTORY	GST	2016/17
Application for change of use or for change or continuation of a non-conforming use where no new development is occurring	Y	N	\$295

2. Advertising or nearby land owner notification may be required to comply with Council's local planning scheme(s), policies or may be determined as being a requirement of the planning assessment process by Shire Officers.

AGENDA NUMBER:	12.3
SUBJECT:	Budget Monitoring – May 2016
LOCATION/ADDRESS:	Nannup Shire
NAME OF APPLICANT:	N/A
FILE REFERENCE:	FNC 8
AUTHOR:	Robin Prime – Corporate Services Officer
REPORTING OFFICER:	Tracie Bishop – Manager Corporate Services
DISCLOSURE OF INTEREST:	None
DATE OF REPORT:	26 June 2016
ATTACHMENTS:	12.3.1 – Financial Statements for the period ending 31 May 2016 12.3.2 – Table Showing Detailed Variances for May 2016

BACKGROUND:

Local Government (Financial Management) Regulation 34(1) requires that Council report monthly on the financial activity from all the various operating and capital divisions. Council has adopted a variance threshold of 10% or \$30,000, whichever is the greater on which to report. The statutory statements are appended at Attachment 12.3.1

Whilst this has resulted in all variances of 10% being identified and reported, it only focuses attention on the performance to the month in question and not the likely outturn at the end of the year.

Monthly reporting draws on the flexibility allowed in the Financial Management Regulations to draw attention to likely under and overspends at the end of the year.

COMMENT:

As part of Council's statutory compliance an annual review of the financial budget was completed in February 2016. All trends identified will continue to be monitored throughout the year with only new variances reported each month.

The gross surplus that is anticipated for the end of this financial year is expected to be \$13,237 this is shown in the table following.

OPERATING BY PROGRAM:

General Purpose Funding:

\$23,272 predicted Deficit in this Program.

\$51,000 within interest on investments under received, offset by over received of sundry income of \$12,960 and Penalty Interest of \$4,495. Also counter balanced by savings made in D.O.T Licensing Expenses.

Governance:

\$4,460 predicted Surplus in this Program.

Insurance expense \$9,500 less than budgeted, salaries expense \$5,000 less than budgeted, however offset by higher printer maintenance costs of \$1,100, Accommodation and Travel Expense \$3,500 higher than anticipated, and \$5,000 legal expenses, \$7,500 savings made in IT Costs and \$725 savings in Election Costs.

Law & Order:

\$13,600 predicted Deficit in this Program.

Firebreak contractor \$1,226, Ranger Salaries \$6,000 Ranger Expenses \$9,145 all overspent in expenses, added to by the under received Cockatoo Valley Fire Break fees \$1,000 under received, DFES Reimbursement CESM \$3,000. These overspends and under received offset by over received amounts of Dog Registration Fees of \$2,000, Fines and Penalties \$1,320 and Savings made in Brigade Vehicle Maintenance of \$2,188.

Health:

\$6,466 predicted Surplus in this Program.

General License Fees increase of budget by \$6,466, this is a new fee, not previously accounted for.

Education and Welfare:

\$900 predicted Surplus in this Program.

Heritage trail \$3,200 overspent, Superannuation \$1,800 Overspent, coupled with a seniors Grant never received of \$2,100, all offset by Community Development Officer Savings from Youth Officer \$8,000.

Housing:

\$500 predicted Surplus in this program.

Staff Housing Maintenance \$8,500 under spent, and Rental lease under received by \$8,000.

Community Amenities:

\$74,200 predicted Surplus in this Program.

Positives in each identified area, \$6,300 more in Tip Fees, \$7,400 in Planning Fees, \$500 in Cemetery fees, all offset by lower town planning expenditure of \$60,000.

Recreation & Culture:

\$13,250 predicted Surplus in this Program.

Savings have been identified in Community meeting Room of \$600, Public Parks and Gardens of \$16,000 and Library Salaries of \$6,000. However, offset by over spends in the Old Roads Building of \$3,500 and Foreshore Park of \$4,500.

Transport:

\$7,275 predicted Surplus in this Program.

Street sweeping savings of \$5,000, coupled with an over receive of Sale of Materials of \$2,275.

Economic Services:

\$6,750 predicted Surplus in this Program.

Caravan Park income \$3,000 more than budgeted, Building Permits \$1,500 more than budgeted, coupled with \$3,000 savings on tourist promotion. Small under receive in Septic Tank Application Fees \$440 and Overspend in Australia Day Celebrations \$312.

Other Property & Services:

\$5,300 predicted Surplus in this Program.

Private Works underspend of \$3,300, and Licences underspend of \$2,000.

CAPITAL

Governance:

\$2,000 to be spent acquiring Lot 66 – Laneway linking Walter street to Adam Street, Nannup.

Recreation & Culture:

\$46,990 has been spent upgrading the Community Meeting room.

Economic Services:

\$20,000.00 has been paid to the lessees of the Caravan Park to cover costs associated with building the ablution block and removal of asbestos shed, as per Council Meeting held in October 2015 Item 12.5 resolution 9300.

Attachment 12.3.2 provides detailed breakdowns of income and expenditure incurred within the period 1 July 2015 and 31 May 2016 and the associated annual budgets. These are broken down into five columns. The annual budget within the schedule, the budgeted year to date figures, actual spend to date and variance between budgeted year to date and actual percentage and dollar value. Items highlighted in yellow indicate Capital Expenditure.

Shire of Nannup
Ordinary Council Meeting Minutes: 23 June 2016

	(Surplus)/Deficit \$
Gross (surplus)/deficit expected for the year	
Income – under received	\$13,046
Expenditure – underspent	-\$95,273
Capital	\$68,990
Projected surplus at end of the year	-\$13,237

STATUTORY ENVIRONMENT:

Local Government (Financial Management) Regulation 34(1)(a).

POLICY IMPLICATIONS: Nil.

FINANCIAL IMPLICATIONS: Nil.

STRATEGIC IMPLICATIONS: Nil.

RECOMMENDATION:

It is recommended that the Monthly Financial Statements for the period ending 31 May 2016 be received.

Any surplus realized as at June 30 2016 should be used to offset reserve contribution from AMP required to cover Recreation Centre Capital Fund.

VOTING REQUIREMENTS: Simple Majority

16094 MELLEMA/GILBERT

It is recommended that the Monthly Financial Statements for the period ending 31 May 2016 be received.

Any surplus realized as at June 30 2016 should be used to offset reserve contribution from AMP required to cover Recreation Centre Capital Fund.

AGENDA NUMBER:	12.4
SUBJECT:	Monthly Accounts for Payment - May 2016
LOCATION/ADDRESS:	Nannup Shire
NAME OF APPLICANT:	N/A
FILE REFERENCE:	FNC 8
AUTHOR:	Tracie Bishop – Manager Corporate Services
REPORTING OFFICER:	Tracie Bishop – Manager Corporate Services
DISCLOSURE OF INTEREST:	None
PREVIOUS MEETING	None
REFERENCE:	
DATE OF REPORT	16 June 2016
ATTACHMENTS:	12.4.1 – Accounts for Payment – May 2016 12.4.2 – Credit Card Transactions – April & May 2016

BACKGROUND:

The Accounts for Payment for the Nannup Shire Municipal Account fund and Trust Account fund to 31 May 2016 as detailed hereunder and noted on the attached schedule, are submitted to Council.

COMMENT:

If Councillors have questions about individual payments prior notice of these questions will enable officers to provide properly researched responses at the Council meeting.

There is currently one corporate credit card in use. A breakdown of this expenditure in the monthly financial report is required to comply with financial regulations. This breakdown is included within the attachments.

Municipal Account

Accounts paid by EFT	8299 - 8388	\$186,241.09
Accounts paid by cheque	20031 – 20043	\$4,898.20
Accounts paid by Direct Debit	DD9597.1 to DD9609.9	\$54,273.64
Sub Total Municipal Account		<u>\$245,412.93</u>

Trust Account

Accounts paid by cheque	22797 - 22797	\$200.00
Sub Total Trust Account		<u>\$200.00</u>

Total Payments		<u><u>\$245,612.93</u></u>
-----------------------	--	----------------------------

STATUTORY ENVIRONMENT: LG (Financial Management) Regulation 13

POLICY IMPLICATIONS: Nil.

FINANCIAL IMPLICATIONS: As indicated in Schedule of Accounts for Payment.

STRATEGIC IMPLICATIONS: Nil.

RECOMMENDATION:

That the List of Accounts for Payment for the Nannup Shire Municipal Account fund totalling \$245,612.93 for period 1 May 2016 to 31 May 2016 in the attached schedule be endorsed.

VOTING REQUIREMENTS: Simple Majority

16095 SLATER/STEVENSON
